

Discover Omdia's unrivalled market intelligence. Unlock invaluable insights across the security industry from video surveillance, security AI, and physical security as a service to drone detection, weapons, and more.

Omdia is the new technology research powerhouse, established in 2019 with the combination of Informa Tech's Ovum, Tractica and Heavy Reading brands with the acquired IHS Markit technology research portfolio. Omdia helps clients navigate the complex security landscape through holistic analysis of the technologies, players and trends driving market shifts.

Omdia helps you...

- Size the markets for security equipment and software
- Understand the competitive landscape
- Identify macro and micro trends by granular product or regional segmentation based on a proven reported data based methodology

Why Omdia?

When you partner with Omdia, our global team of expert analysts and consultants help you prioritize the right investments and discover new opportunities. We provide the powerful data, tools, and strategic advice you need, to make the right decisions.
